

## **UFCD Gainesville:**

### **POST OCCUPATIONAL EXPOSURE PROCESS FLOW**

- > Stop the procedure, cleanse the skin with antibacterial soap or flush eyes with clean water.
- > Injured health care worker (HCW); faculty, resident, staff or student calls the Student Health Care Center (SHCC) Needlestick Hotline at **9-1-866-477-6824**. Identifies self as UFCD employee or student who has experienced an exposure. Provide information about the event as requested by SHCC.
- > Attending dental faculty confirms permission from source/patient to test for Hepatitis B, Hepatitis C and HIV at no expense to source/patient. Patient signs electronic consent form in aXium. (EHR>Forms>NDLSTK *Post Exposure Pt. Consent Form*) to document consent was obtained for testing related to occupational exposure. No further details are included.
- > HCW and source patient go to Shands lab on 3rd floor, room 3152 for lab tests. (Lab forms will be completed by SHCC and faxed to the Shands lab.)
- > The source patient is to be verbally informed of their test results by the exposed dental HCW. SHCC must provide the results – as SHCC originally ordered the tests.
- > **NOTE:** If HCW is faculty, staff or paid resident, the HCW should contact Workers Compensation at 392-4940 to open a claim so expenses will be covered by Workers Comp. Follow-up visits for HCW are scheduled according to SHCC guidelines.

## **UFCD St. Petersburg and Hialeah:**

### **POST OCCUPATIONAL EXPOSURE PROCESS FLOW**

- > Stop the procedure, cleanse the skin with antibacterial soap or flush eyes with clean water.
- > Injured health care worker (HCW); faculty, resident, staff or student calls the Student Health Care Center (SHCC) Needlestick Hotline at **9-1-866-477-6824**. Identify yourself as UFCD employee or student and that you've had an exposure. Provide information about the event as requested by SHCC.
- > Attending dental faculty confirms permission from source patient to test for Hepatitis B, Hepatitis C and HIV at no expense to them. Patient signs electronic consent form in aXium. (EHR>Forms>NDLSTK *Post Exposure Pt. Consent Form*) to document consent was obtained for testing related to occupational exposure. No further details are included.
- > HCW and source patient go to:
  - > Hialeah: Kessler Occupational Medicine 1029 E 25th St in Hialeah
  - > Seminole (St Pete): Lakeside Occupational Medical Center 3745 33rd Street N., Suite A
- > The source patient is to be verbally informed of their test results by the exposed dental HCW. SHCC must provide the results – as SHCC originally ordered the tests.
- > **NOTE:** If HCW is faculty, staff or paid resident, the HCW should contact Workers Compensation at 392-4940 to open a claim so expenses will be covered by Workers Comp. Follow-up visits for HCW are scheduled according to SHCC guidelines.

## UFCD Naples:

### POST OCCUPATIONAL EXPOSURE PROCESS FLOW

- Stop the procedure, cleanse the skin with antibacterial soap or flush eyes with clean water.
- Injured health care worker (HCW); faculty or resident calls the Student Health Care Center (SHCC) Needlestick Hotline at 9-1-866-477-6824. Identifies self as UFCD employee who has had an exposure. Provide information about the event as requested by SHCC.
- HCW and source patient go to Physicians Regional Hospital for post-exposure lab work. Obtain parental consent for lab work and advise the parent that there is no cost to them.
  - The resident should provide the Workman's Comp information (Opta Comp, PO Box 44291, Jacksonville, FL, 32231) to the Hospital. The case manager is Marti Hanuschik (800) 545-6565 ext 25519 should an authorization be required for treatment. Phone number for billing questions is (800) 333-9797.
- The source patient is to be verbally informed of their test results by the exposed dental HCW. SHCC must provide the results – as SHCC originally ordered the tests.
- **NOTE:** If HCW is faculty, staff or paid resident, the HCW should contact Workers Compensation at 392-4940 to open a claim so expenses will be covered by Workers Comp. Follow-up visits for HCW are scheduled according to SHCC guidelines.

## **UFCD Rotations OFF SITE:**

### **POST OCCUPATIONAL EXPOSURE PROCESS FLOW**

- When you check into the rotation site, be sure to review the specific process for rotation site prior to getting started with clinical tasks.
- UF Specific Guidelines:
  - Stop the procedure, cleanse the skin with antibacterial soap or flush eyes with clean water.
  - Injured health care worker (HCW); student dentist on rotation calls the Student Health Care Center (SHCC) Needlestick Hotline at 9-1-866-477-6824.
    - Identifies self as UFCD student who has experienced an exposure while "out of town" on a rotation.
    - Be sure to let the provider know there is a lab associated with the rotation site.
    - Provide information about the event as requested by SHCC.
  - If advised to obtain lab testing, then follow rotation site specific guidelines for obtaining source/patient consent for lab work.
    - HCW and source patient go to lab designated by the rotation site for post-exposure testing.
    - The source patient is to be verbally informed of their test results by the exposed dental HCW.
